

AUBURN
ACADEMY

Self-guided
Campus Tour

We are excited to welcome you to Auburn Academy, the MRT server's premier university-preparatory school! Through this self-guided tour, you will be introduced to our main campus, which is one of the things for which the Academy is well known. We expect this tour to take approximately **20 minutes** without entering buildings, but you are free to spend additional time along the way taking a closer look at buildings and exploring their interiors.

A map of the tour route is included at the end of this guide for your reference.

1 | Getting started

Your tour begins at the **Admission Information Centre**, located on the upper level of the Bookstore building. If you are not yet there, the Bookstore is located through the west gate when accessing the campus from the MRT Southern Line station (SW20).

2 | Safety, health, & well-being

Heading west along the walkway in front of the Bookstore, you will pass the **Public Safety building** on the right as you approach Academy Drive. The Public Safety building serves as the headquarters of the Academy's security forces and houses its emergency response centre.

Now, cross Academy Drive. Straight on is the Academy's **Infirmery**, which serves as the primary health clinic for Academy students. It is capable of treating most illnesses and injuries. If you have additional time, you can continue past the Infirmery to visit the **Mental Health Centre**, but to proceed with the self-guided tour, turn left to travel south along Academy Drive.

3 | Community Hall

Continue south along Academy Drive until you reach River Road, where you will turn right. Follow River Road to its end at a cul-de-sac, then proceed down the stairs for River Walk. Take the first set of stairs on the right and follow the path to **Community Hall**, which serves as the Academy's dining hall and a venue for events ranging from religious services to concerts and conferences.

Enter Community Hall and pass through the Great Hall. To each side of the Great Hall are serveries where the Academy's dining services staff prepare and serve meals. Once you have traversed the Great Hall, exit the building through the west doors and head down the steps.

4 | Academy Campus Centre

Ahead of you is the **Academy Campus Centre**. The ACC is the primary hub for residential life, containing casual dining options and a convenience store. It also encompasses the Gender & Sexuality Resource Centre and the Centre for Teaching & Learning. The ACC additionally contains offices for the four residential houses, which form the basis of the Academy's residential life model. Each incoming student is randomly placed in one of the four houses. The houses serve as students' dormitories while also delivering academic advising to their members.

5 | Residential Quadrangle

Continue south along the façade of the ACC, then head down the stairs and under the pair of flying buttresses. This will bring you into the **Residential Quadrangle**, affectionately known as 'Res Quad'. Res Quad is surrounded by four dormitories, each of which contains one of the residential houses. These dormitories house all first- and second-year students and most third- and fourth-year students.

6 | Heart Lake waterfront

Exit Res Quad between South Hall and West Hall, then turn left and continue on the path that runs along the beach. This path, Lakeview Walk, provides access to the main **Heart Lake** waterfront, which is a popular escape from work for students in warmer weather.

7 | Academy Garden

Follow the ramp at the end of Lakeview Walk to reach the cul-de-sac at the end of Vulpine Way. To the left is a set of steps that lead down into the **Academy Garden**. The garden is a carefully maintained green space known for its idyllic nature. The landscaping in its centre forms the Academy's shield.

8 | Central Library

Walk down Vulpine Way until you reach the first building on the left. This is the **Central Library**, the headquarters of the Auburn Academy Library. The Central Library contains around 30 kilometres of shelves and houses most of AAL's collections as well as the Academy's archives and special collections. A favourite study spot for many Academy students, the Central Library also has many spacious reading rooms, including the iconic central atrium.

9 | Student Leadership Building

Continue along Vulpine Way, then turn left onto Academy Drive. Once you reach the crossing about halfway down the length of the Central Library building, cross Academy Drive to reach the **Student Leadership Building**. The SLB formerly served as the Academy Student Centre, the precursor to the current ACC. It now contains several casual dining options and prefects' offices on its main levels. Its basement level, accessed on the south side of the building, contains the Academy's largest lecture hall.

10 | Humanities Quadrangle

Proceed south on Academy Drive until you pass a pavilion with a hearth. Turn left to follow the path into the quadrangle ahead of you. This is the **Humanities Quadrangle**, or 'Hum Quad' (pronounced 'hyoom'). Hum Quad is formed by buildings that house departments in the liberal arts. To the left is the **English Building**, with the **Creative Writing Rotunda** to its east. Straight on is the **Social Sciences Centre**. To the right is the **World Languages Building**.

11 | Equestrian Centre and Track

Exit Hum Quad between the Social Sciences Centre and the World Languages Building. Ascend the steps and proceed south towards Heart Lake and the **Lighthouse**. Follow Stadium Walk, which runs along a viaduct over a river. At the base of the steps is the **Equestrian Centre** on the right and the **Track** on the left.

12 | Stadium and Mini-golf Course

Continue along Stadium Walk, which wraps around the **Stadium**. On the opposite side of the Stadium, the **Mini-golf Course**, an eighteen-hole course constructed by Forest Mini Golf, is located to the right.

13 | Gymnasium

Turn right to continue on Stadium Walk. On the right is the Academy **Gymnasium**. The Gymnasium houses most indoor athletics, including basketball, exy, hockey, spleef, and volleyball. It also contains other training facilities, such as a fitness centre and athletic trainer spaces.

14 | Baseball & Softball Field and Aquatics Centre

To the left along Stadium Walk is the **Baseball & Softball Field**, and further north is the **Aquatics Centre** to the right.

15 | The Woods

Continue on Stadium Walk until it meets another path. Turn right onto Woods Walk, which will take you through **The Woods**, a wooded area that passes under the MRT Southern Line viaduct and connects to the northern portion of the campus.

16 | Fine Arts Quadrangle

At the end of Woods Walk is the **Fine Arts Quadrangle**, or 'Arts Quad'. To the left are the **Film & New Media Building** and the **Visual Art Centre**. Straight on is the **Performing Arts Complex**, which contains several venues such as the **Academy Auditorium** and the **Recital Hall**. To the right is the **Music Centre**, which also contains the **Music Library**. Below the quadrangle itself, and connecting all of the arts buildings, is the **Arts Forum**, a multipurpose space for events and performances. To the south of the Music Centre is the **Amphitheatre**, the primary outdoor performance venue at the Academy.

17 | Fox Hall

Turn around to head south again towards the Woods, but take the smaller path, Fox Walk, that branches off to the right of Woods Walk. As you head up the steps, **Fox Hall** will appear straight on. Formerly home to the Academy's Primary School and Intermediate School, Fox Hall now serves as additional dormitory space for third- and fourth-year students. As you continue along Fox Walk, pass through **Auburn Arch** in the centre of the building.

18 | STEM Quadrangle

At the base of the Auburn Arch steps, continue south to the **STEM Quadrangle** (STEM Quad). To the left is the **Engineering Centre**, which contains a makerspace in the rear, and to the right is the **Mathematics Building**. Straight on is the **Science Centre** with unique classrooms capable of basic laboratory instruction.

19 | Peninsula Hall

Continue along Fox Walk, wrapping around the Mathematics Building and up the steps. To the left are the **Laboratory Sciences Centre**, a specialised facility for advanced laboratory instruction and scientific research, as well as the **Farm** and the **Greenhouse**. Proceeding west along Fox Walk, **Peninsula Hall** will be on the right. Peninsula Hall houses the Centre for Diversity, Equity, & Inclusion. It consists of an extension to the historic Peninsula Cottage that is unique for the use of an exterior that departs from the red brick and sandstone used in other buildings.

20 | Academy River

Follow Fox Walk until it reaches Academy Drive. To the right is an overlook which provides views of the **Academy River**. Turn right on Academy Drive and pass over the river. Across the river from Peninsula Hall is the Academy's **Administration Building**, the oldest building on the campus. To complete your tour, turn right in front of the Public Safety Building and follow the path to exit the campus.

About Auburn Academy

Auburn Academy is the MRT's premier university preparatory secondary school. Its comprehensive and well-rounded curriculum anchored by the 'Three A's' — Academics, Athletics, and Arts — prepares students for success at top universities and in their careers.

Through the immersion offered by the Academy's residential teaching and learning model, students gain an incomparable education that emphasises both breadth and depth. The Academy's faculty are leaders in their respective fields and also dedicated educators. A 5:1 student to faculty ratio enables unparalleled faculty engagement, with individualised advising from faculty members and class sizes never exceeding twelve students. Inside the classroom, students' viewpoints and skills are challenged and developed. Outside the classroom, students have countless options for extracurricular engagement, from subject-based clubs to competitive athletic teams and artistic endeavours. The house system that defines the Preparatory School's residential life provides camaraderie along with personalised support and advising. During their time at the Academy, students find a home and family in their house and its other students.

Auburn Academy's campus supports every aspect of the Academy experience through its state-of-the-art facilities and picturesque grounds. Inviting classrooms, sleek science laboratories, resonant performance venues, expansive sport facilities, and much more fill the Academy's campus, enabling boundless learning with the best tools for every class, rehearsal, practice, performance, exhibition, and game.
